COVENANT DELUXE FLIGHT TOKEN SET

Small spacecraft play an important role in the **Halo: Fleet Battles** tabletop game, allowing players to field Wings of Seraph Interceptors, Tarasque Bombers, and the all-important Type-28 Tick Boarding Craft. Inside the standard boxed sets, we provide punch-out card tokens to represent these Wings, but with this new Covenant Deluxe Flight Token Set players can replace their one-dimensional card tokens for stunningly detailed resin models instead! The Flight Tokens sit on individual resin stands and use micro dice to indicate Wing strength, and red coloured dice show if a Tick Boarding Craft has Zealots on board.

Tokens and Bases supplied unpainted.

24 HIGHLY-DETAILED FLIGHT TOKENS
plus 24 RESIN BASES and 32 MICRO DICE

Also available in the HALO: FLEET BATTLES range of products:
